International visitors to the Stellenbosch node of the CBTBR

There were two visitors the Molecular Epidemiology Laboratory of Prof Rob Warren at the SU node of the CBTBR during October and November. They were Ms Charmaine Mlambo (from the Department of Clinical Microbiology and Infectious Diseases, School of Pathology, University of Witwatersrand & NHLS, Johannesburg) and Dr Martha Maria de Oliveira (from Infection and Parasitic Diseases Research Centre, Clementino Fraga Filho University Hospital, Federal University of Rio de Janeiro, Brazil). Both were trained in genotyping techniques such as Restriction Fragment Length Polymorphism (RFLP) etc. Both Visitors are pictured below with Prof Warren.

In Photo (from left to right): Prof Warren, Ms Charmaine Mlambo and Dr Martha de Oliveira.
