

**PUBLIC AWARENESS**

***Valerie Mizrahi presents Darwin Seminar Series lecture on the scientific issues pertaining to MDR- and XDR-TB***

On June 6, Valerie Mizrahi presented a public lecture at the University of Cape Town on “Key Scientific Issues Pertaining to Multi- and Extensively Drug-Resistant Tuberculosis” at the University of Cape Town. The lecture was part of the Darwin Lecture Seminar series hosted jointly by the Africa Genome Education Institute and the Department of Human Genetics of the University of Cape Town. A shortened version of her talk was published on the Op-Ed page of the *Cape Times* on Friday, June 8.
