***International visitors to the Stellenbosch node of the CBTBR***

Mr Desta Arega Anore from the Armauer Hansen Research Institute in Ethiopia and Dr Ushani Sadeepika Rajapaksa (IAEA funded) from the University of Colombo in Sri Lanka were on a 2 month (July-August) training course on Molecular diagnosis of Drug resistant TB that encompassed DNA fingerprinting, spoligotyping, RFLP and MIRU. Mr Anore was hosted in the lab of Prof Warren and Dr Rajapaksa was hosted by Prof Victor.
