

AWARDS

Team Member, Bhavna Gordhan, from the Wits node of the CBTBR, was selected to receive an Interscience Conference on Antimicrobial Agents and Chemotherapy (ICAAC) Program Committee Award in the area of *Pathogenesis of Microbial Diseases* for the presentation of her abstract entitled "The role of the five resuscitation-promoting factors in the growth and resuscitation of *Mycobacterium tuberculosis*". The award was one of six from a total of 1878 accepted abstracts (poster and oral) and was presented to her at the 47th Annual ICAAC Conference, held in Chicago in September.
